

COLOR CHANGING IN JUST 60 SECONDS!

CONRADT TROLLEY

The brand new innovative and flexible CONRADT TROLLEY™ allows fast and accurate color changes to be made in just 60 seconds...

... without wasting even a single granule !
Few steps:

1. Position the next production color Trolley-Unit next to the present one
2. Close valve below CONRADT Loader in use
3. Unplug compressed air and 24V power
4. Move the CONRADT unit including hopper and hose onto the CONRADT TROLLEY™
5. Take the dosing screw unit from the machine and empty it into the CONRADT TROLLEY™
6. Position the next color CONRADT onto the dosing unit and open valve
7. Plug in air and 24V and RUN...

We can provide you with any color indication on CONRADT you want.
